Darkmark sample PDF

The quick brown fox jumps over the lazy dog. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport. Darkmark renders PDF pages lazily. Second page

Searchable needle: zebracorn. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport. Darkmark renders PDF pages lazily. Only the pages near the viewport keep a canvas; the rest are empty placeholders sized from the page viewport.

Landscape page

This page is wider than it is tall. Another zebracorn lives here.
